DOMINO / CURRENT ACCEPTED SYSTEM
Blue = accepted paths | Red dashed = live gate OFF

Frontend

Next.js + React
Conversation + grouped map
Company evidence + cash chart

Question / reveal / alternative

Backend

Bundled 2U disclosures
Facts + dates + assumptions
No live source discovery

Publication-filtered evidence

Convex functions
Fixed workflow + durable jobs
Zod validation / cutoff checks

Specialist dispatch path

CREAO adapter code
Start / poll / validate
Historical live acceptance pending

Computed cash + comparisons

Validated frozen inputs

Persist work + frozen results

Pure TypeScript engine
Quarterly baseline + A1 cost
Compare later reported results

Reactive queries: state + results

External APIs

Start / poll app-scoped jobs

Coarse status / validated result

CREAO app API
Dedicated evidence agent exists
Isolation and live gate unverified

Database

Convex / one database
Messages + operation history
Frozen runs + separate reveals
